

5th. WEEK - 4th. GRADE

SCIENCE:

LIVING ORGANISMS AND ECOSYSTEMS (UNIT 2)

page 26

1. In a **food chain**,

- who* are the producers?: **the plants**

[***who**: *quién o quiénes*]

- who are the consumers?:
the animals
- who are the decomposers?:
bacteria and fungi

2. Complete:

- Herbivores feed on **plants**
- Carnivores feed on **meat (animals)**
- Omnivores feed on **plants and animals**

3. Watch this video about **food chains**:

<https://youtu.be/Offfhw5mboc>

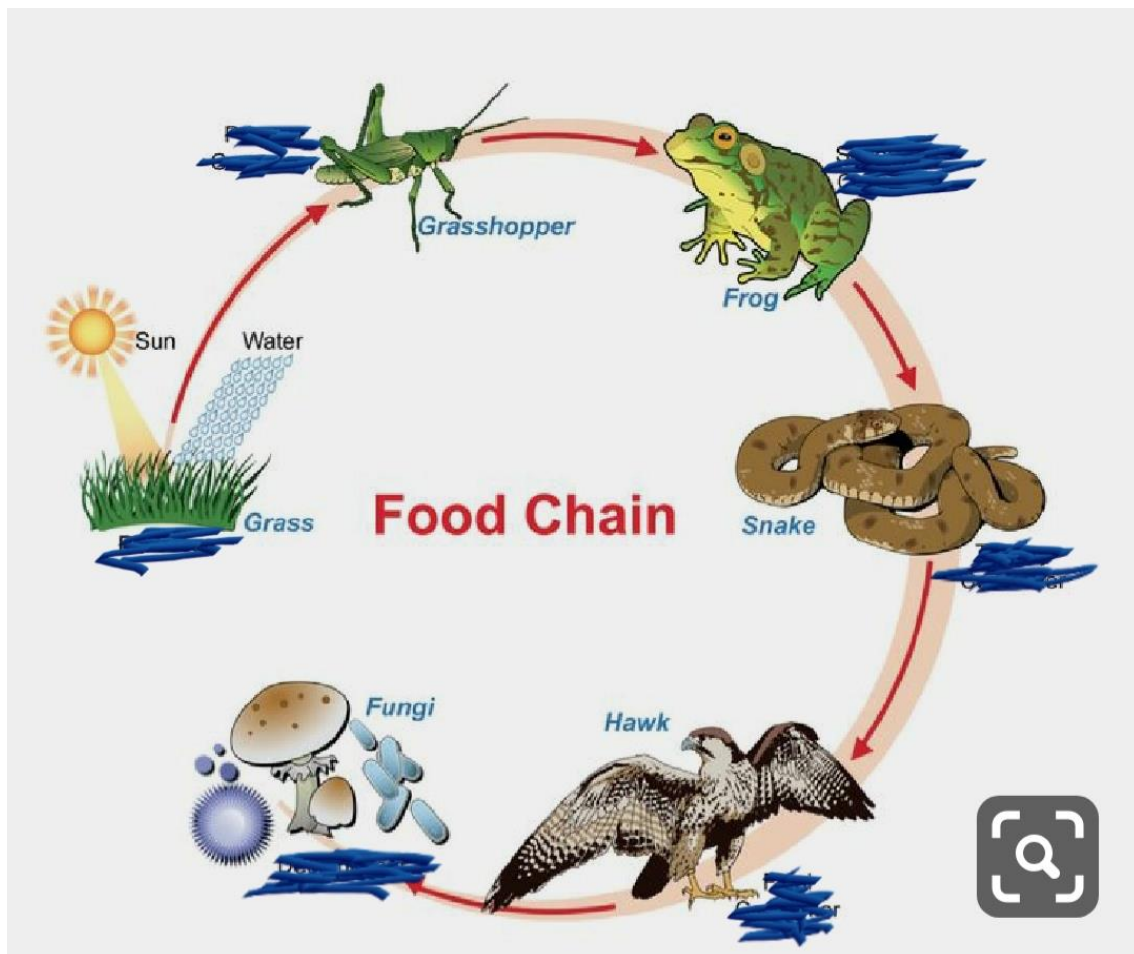

- Write the food chain that you can see in this video:

The grasshopper feeds on the grass, the frog feeds on the grasshopper, the snake feeds on the frog, the eagle feeds on the snake. The eagle decomposes and goes to the soil.

- Complete this sentence from the video:

“The dead bodies of all **plants** and **animals** mix in the **soil** helping the soil to become fertile.”

4. Look at this food chain:

- who are the producers?:
The producer is the grass.
- who are the consumers?:
The consumers are the grasshopper, the frog, the snake and the hawk.
- who are the decomposers?:
The decomposers are the fungi and the bacteria.
